Soluzioni

classe 4ª

Segni nuovi e primo strumento: croma, punto, legatura, diesis e bemolle, dinamiche, note acute e flauto dolce.

do re mi fa sol la si

Per l'insegnante

Indice delle schede

Per l'insegnante. In quarta arrivano i segni che servono per suonare davvero. Le schede di strumento usano i **Brani propedeutici** di musicascuole.it (con basi audio sul sito) e la diteggiatura tedesca del flauto dolce.

Grafia

4G-03 Il punto di valore 3
4G-04 La legatura di valore 4
4G-05 Diesis, bemolle, bequadro 5

Schede gratuite di **musicascuole.it**, licenza CC BY-NC-SA 4.0: si possono stampare, fotocopiare e condividere, non vendere. Notazione disegnata con VexFlow (MIT). Illustrazioni: OpenMoji, progetto open source di HfG Schwäbisch Gmünd, licenza CC BY-SA 4.0. Carattere Fredoka (SIL Open Font License).

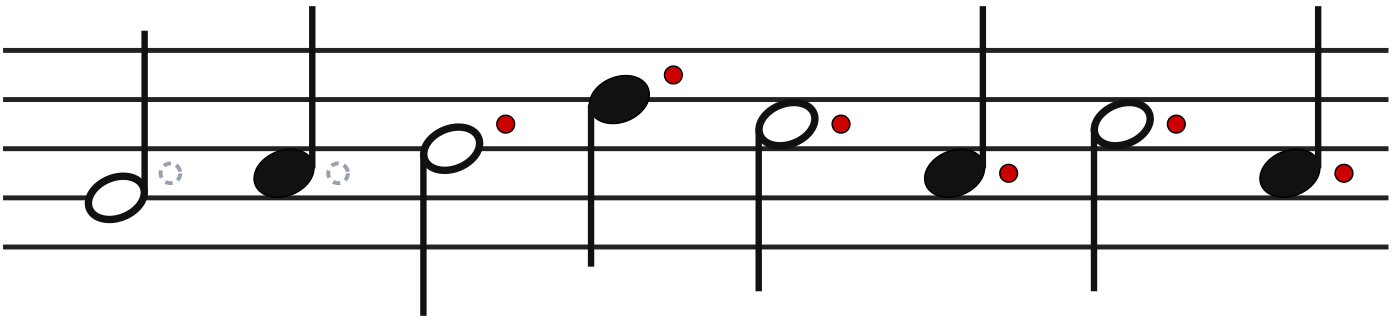

Soluzioni · Il punto di valore

Ripassa i punti. Poi aggiungi il punto dove manca: sempre **nello spazio**, a destra della testa.

Se la nota è **sul rigo**, il punto sale nello **spazio sopra**: non sta mai sul rigo.

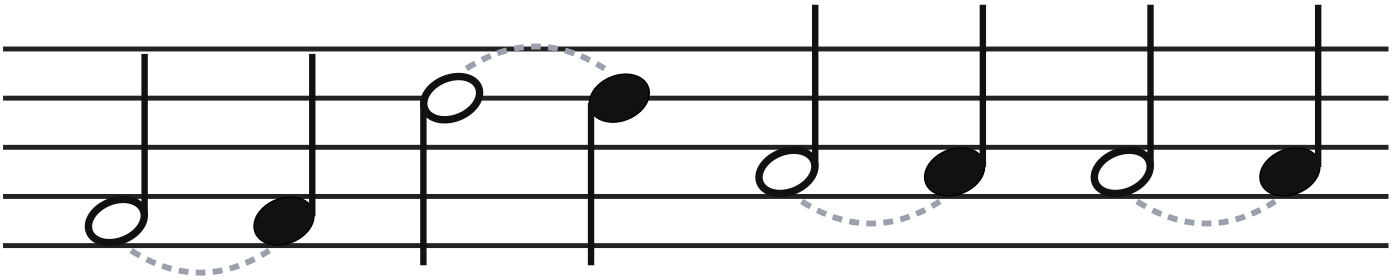

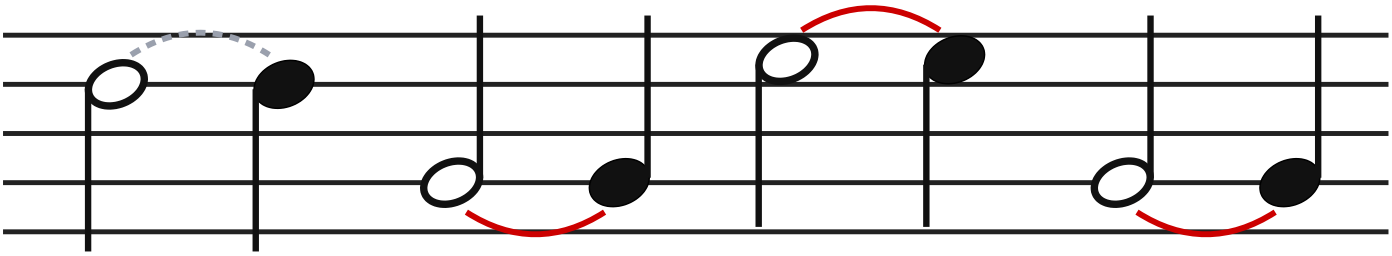

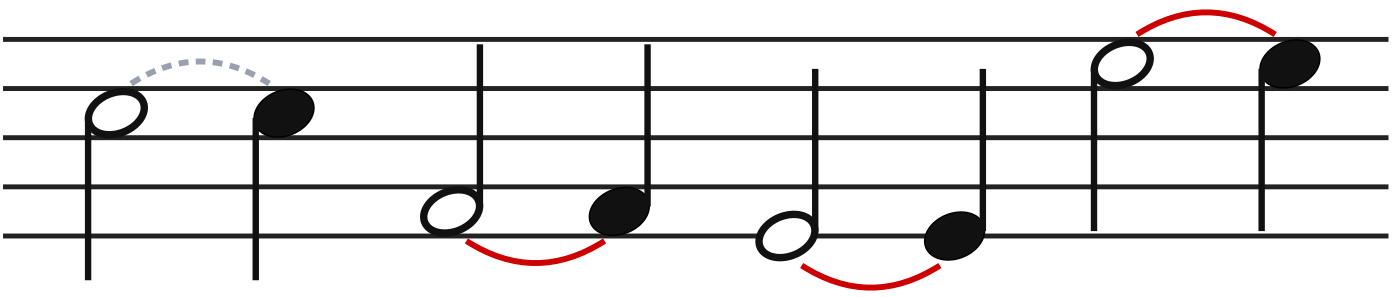

Soluzioni · La legatura di valore

La legatura unisce **due note uguali**: si suona una nota sola, lunga quanto tutte e due. Ripassa e poi disegna.

La curva va dalla parte **opposta ai gambi** e collega le teste, non i gambi.

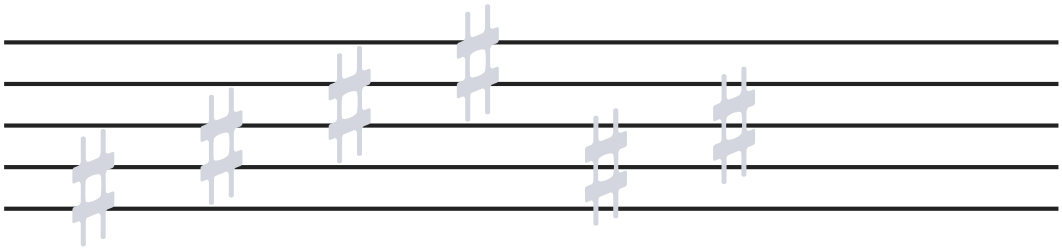

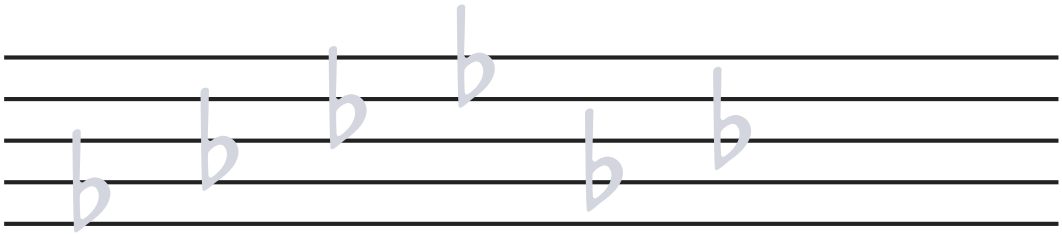

Soluzioni · Diesis, bemolle, bequadro

Ripassa i segni. Poi scrivi il segno indicato **prima** di ogni nota, alla sua stessa altezza.

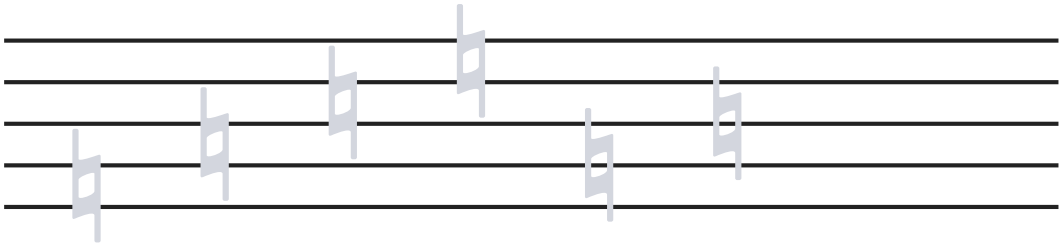

diesis ♯
alza la nota di un semitono

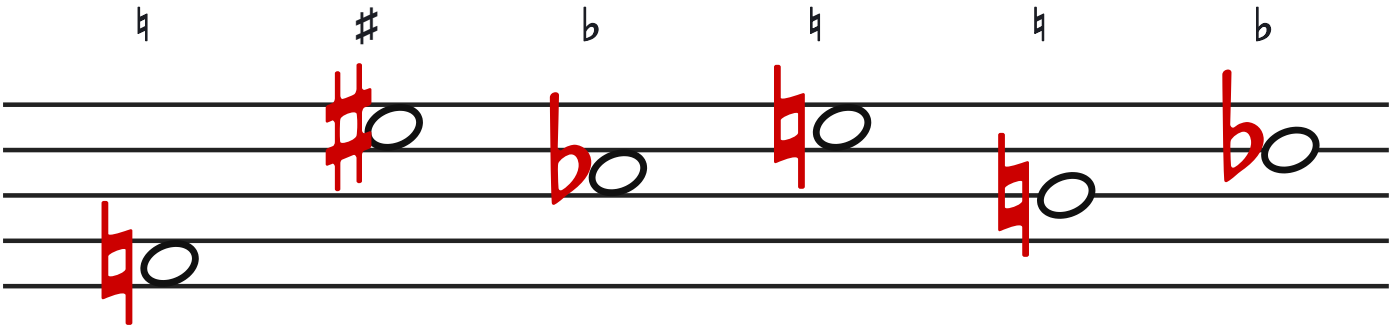

bemolle ♭
abbassa la nota di un semitono

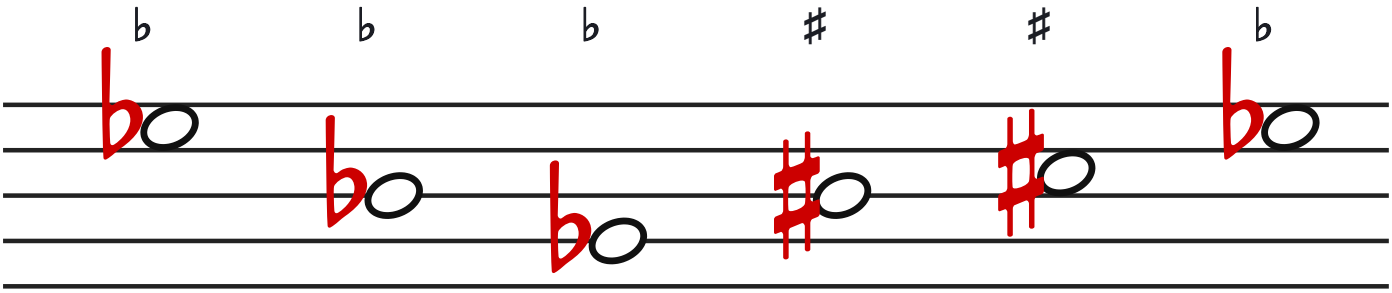

bequadro ♮
toglie il diesis o il bemolle

Ora tocca a te: scrivi il segno davanti alla nota.

Soluzioni · Piano e forte

Ripassa i segni della dinamica. Poi unisci ogni segno al suo animale.

p = piano

p p p p

mf = mezzo forte

mf mf mf mf

f = forte

f f f f

crescendo e **diminuendo**: piano piano più forte, piano piano più piano

p

f

<

mf

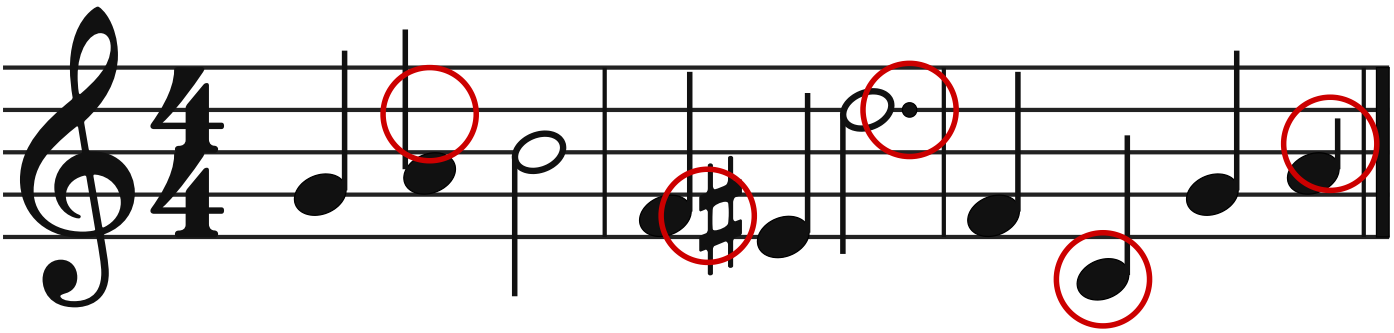

Soluzioni · Caccia agli errori

In questa melodia ci sono **5 errori** di scrittura. Cerchiali e scrivi sotto che cosa non va.

1. **gambo in su a sinistra**

2. **il diesis va prima della nota**

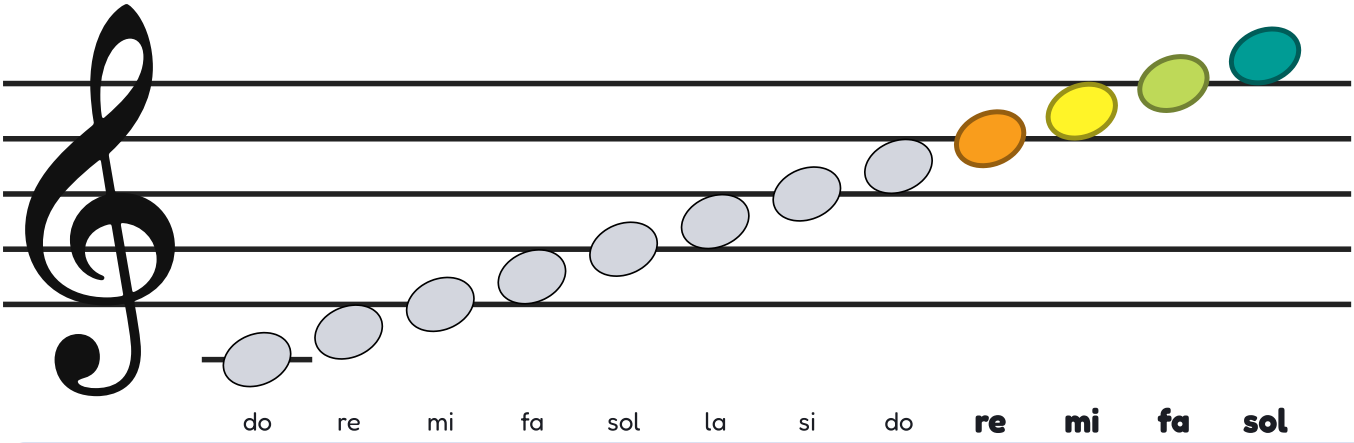

3. **il punto va nello spazio**

4. **manca il taglio del do**

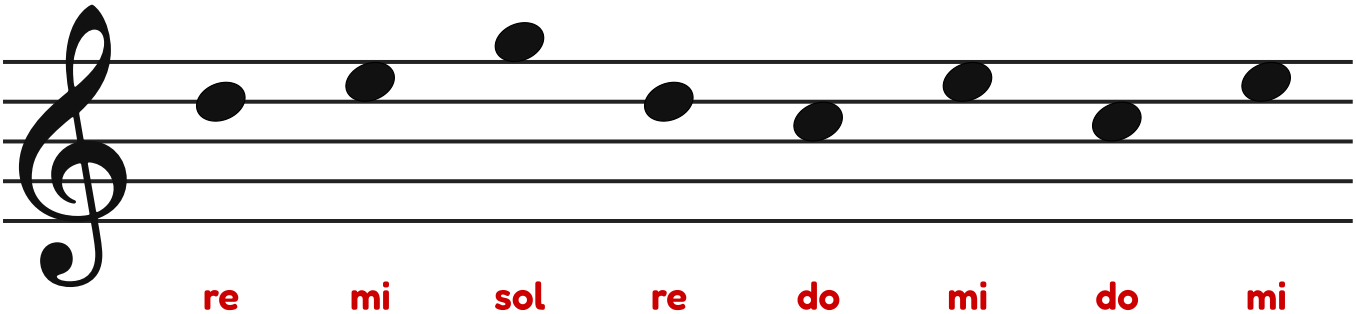

5. **gambo troppo corto**

Soluzioni · Le note acute

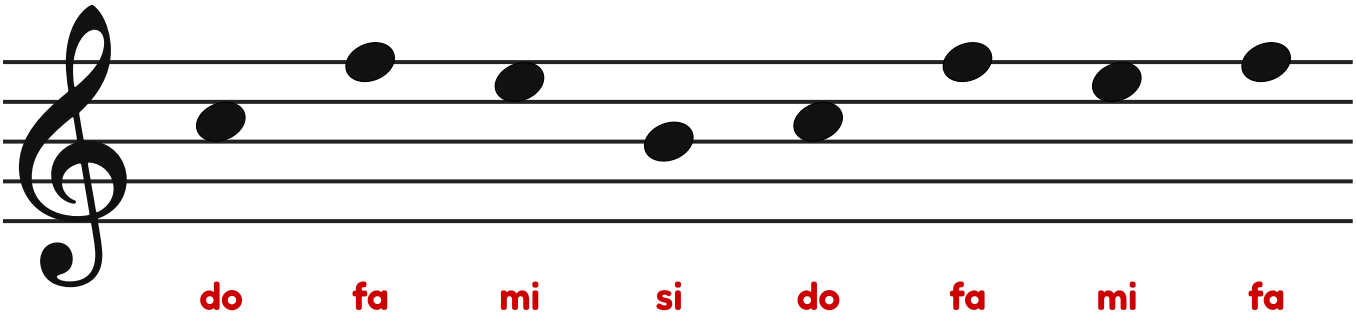

Sopra il do acuto la scala continua: **re, mi, fa, sol**. Ripassa e poi scrivi il nome.

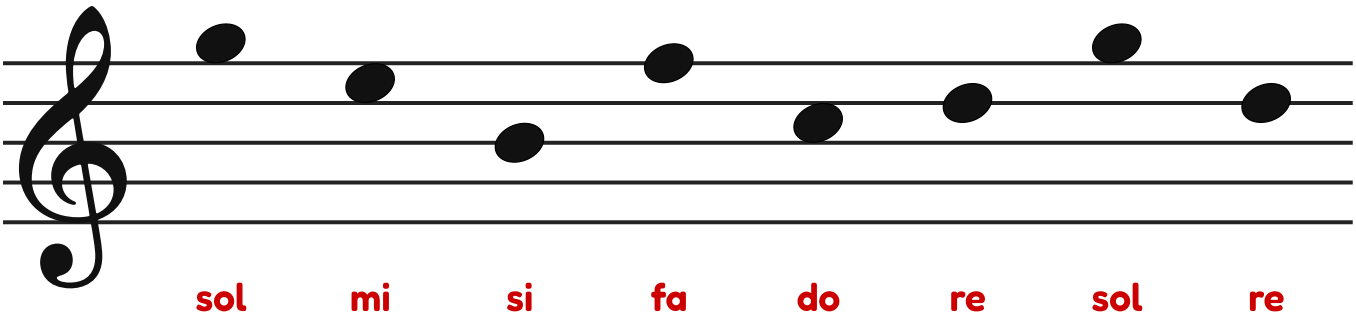

re sul 4° rigo · **mi** nel 4° spazio · **fa** sul 5° rigo · **sol** appeso sopra il 5° rigo.

re mi sol re do mi do mi

do fa mi si do fa mi fa

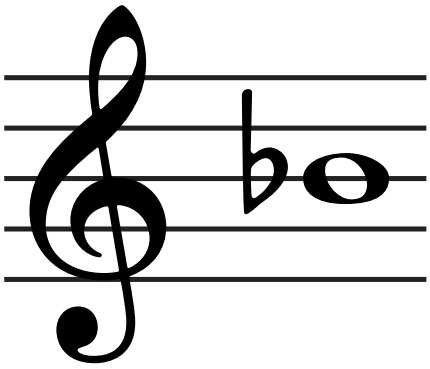

sol mi si fa do re sol re

Soluzioni · Fa diesis e si bemolle

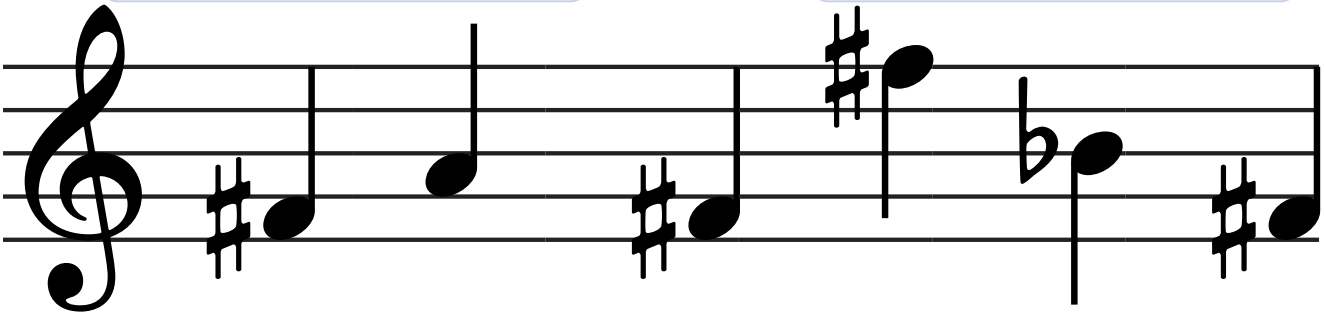

Il diesis e il bemolle cambiano il suono della nota. Scrivi il nome completo: per esempio **fa♯** o **si♭**.

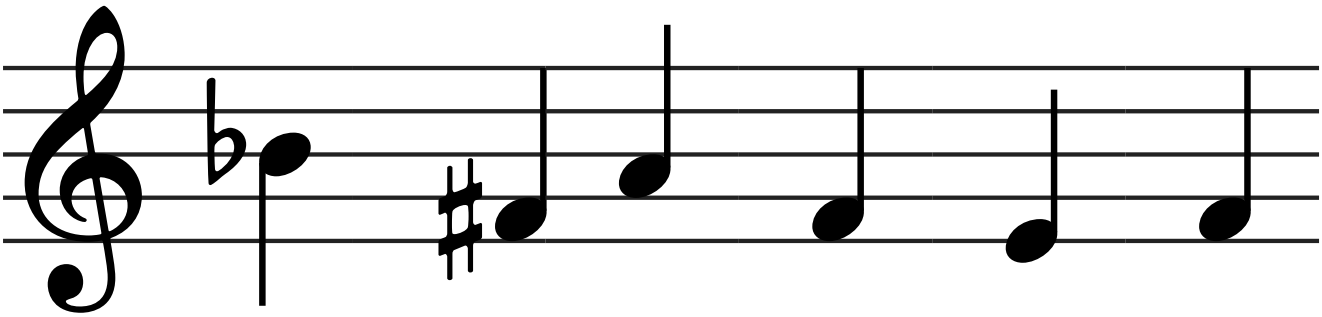

fa diesis
un po' più acuto del fa

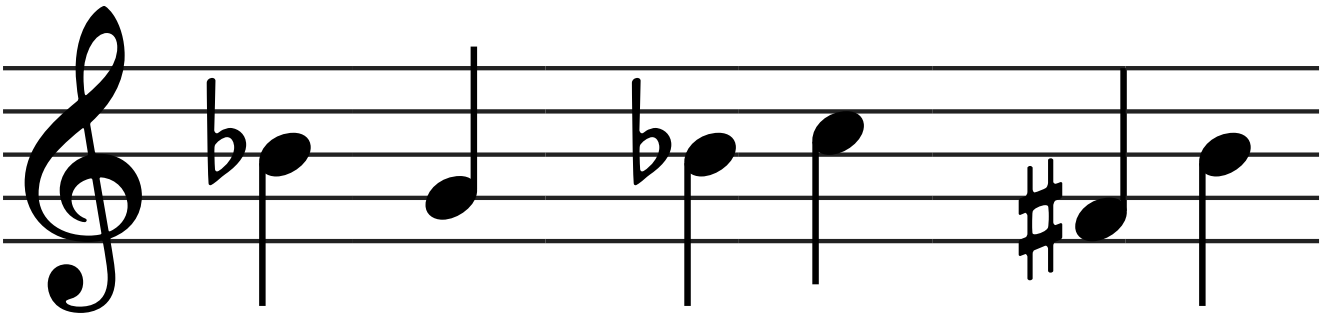

si bemolle
un po' più grave del si

fa♯ la fa♯ fa♯ si♭ fa♯

si♭ fa♯ la fa mi fa

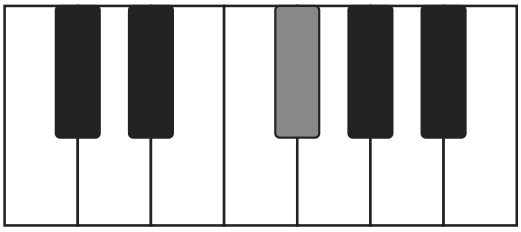

si♭ sol si♭ do fa♯ si

Soluzioni · Tasti bianchi e tasti neri

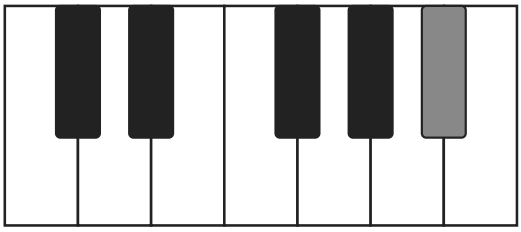

Su ogni tastiera colora il tasto della nota scritta sopra. I tasti neri sono i diesis e i bemolle.

Il tasto nero **a destra** di una nota è il suo **diesis**; quello **a sinistra** è il suo **bemolle**. Lo stesso tasto può avere due nomi: fa♯ = sol♭.

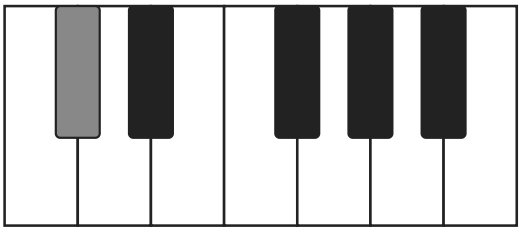

fa♯

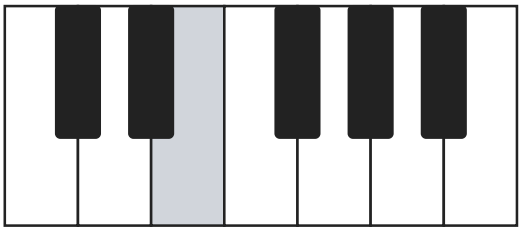

si♭

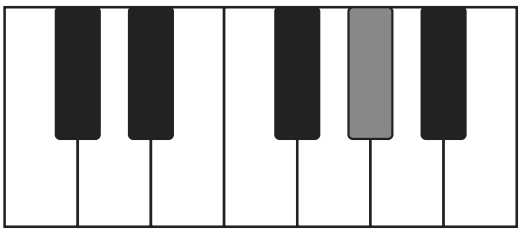

do♯

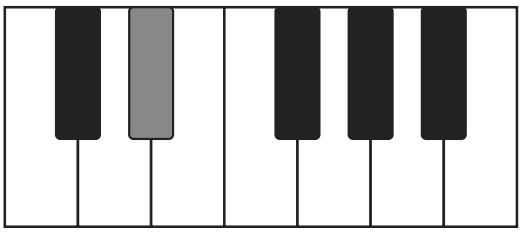

mi

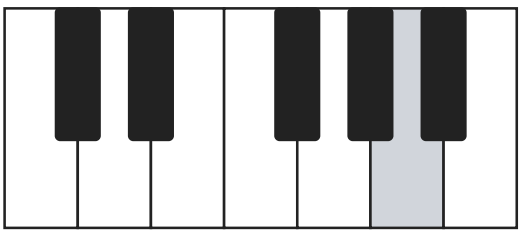

sol♯

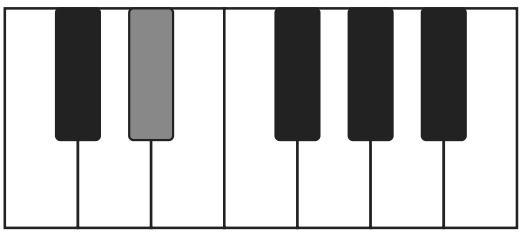

mi♭

la

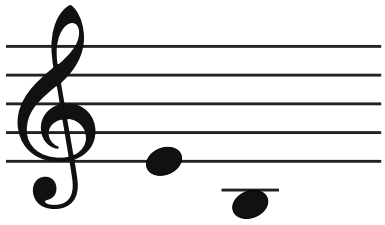

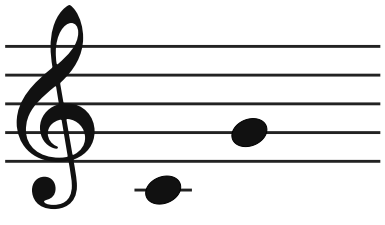

re♯

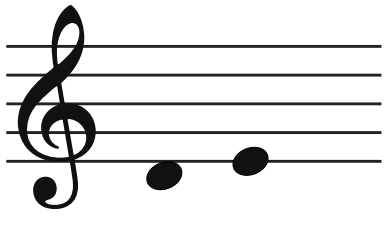

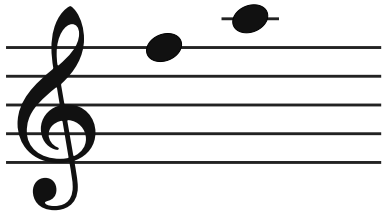

Soluzioni · Vicine o lontane?

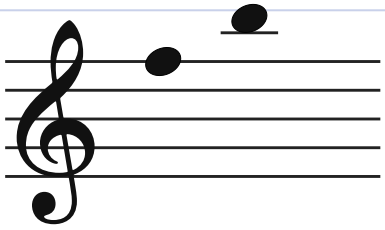

Le due note sono **vicine** (una dopo l'altra, grado congiunto) o fanno un **salto**? Fai una crocetta.

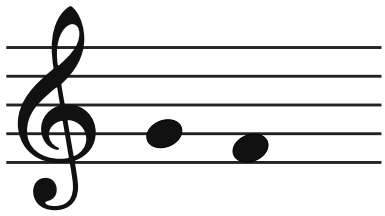

vicine **salto**

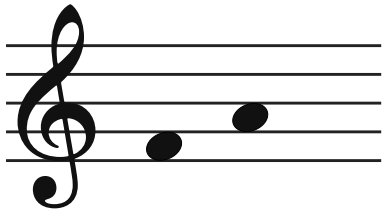

vicine **salto**

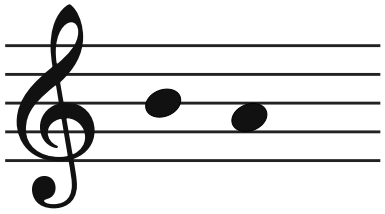

vicine salto

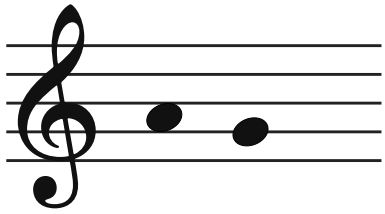

vicine **salto**

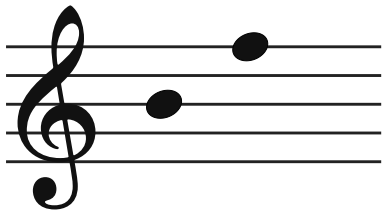

vicine **salto**

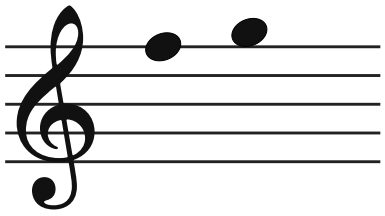

vicine salto

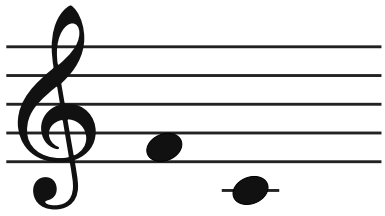

vicine **salto**

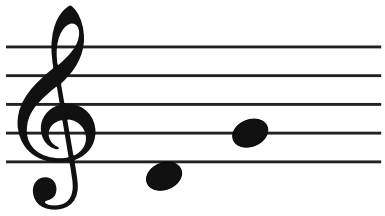

vicine salto

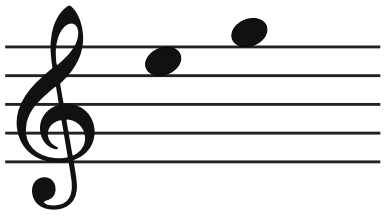

vicine salto

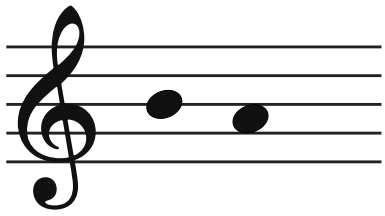

vicine **salto**

vicine salto

vicine **salto**

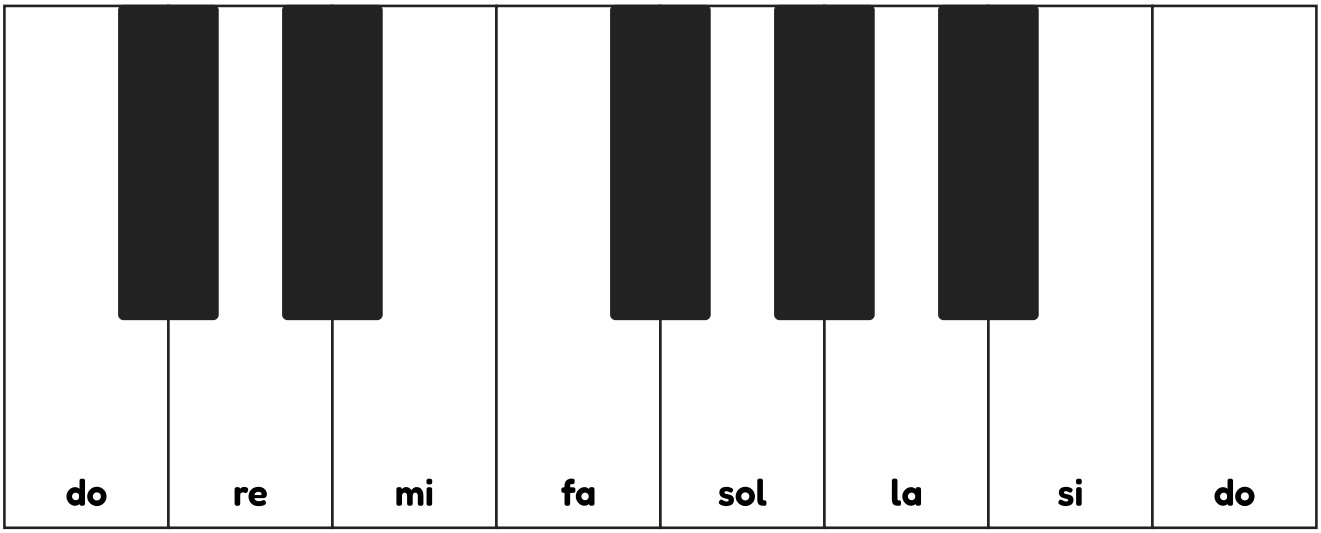

vicine **salto**

vicine salto

vicine salto

Soluzioni · Toni e semitoni

Tra due tasti bianchi vicini c'è un tasto nero? Allora è un **tono** (T). Se non c'è, è un **semitono** (S). Scrivi T o S.

T T S T T T S

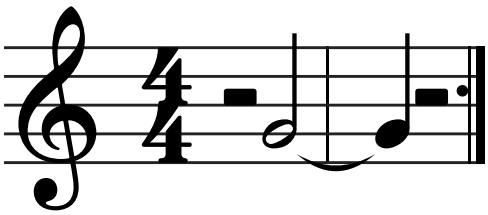

La scala di do ha due semitoni: tra **mi e fa** e tra **si e do**. Tutti gli altri passi sono toni.

Ora completa: tra queste note c'è un tono o un semitono?

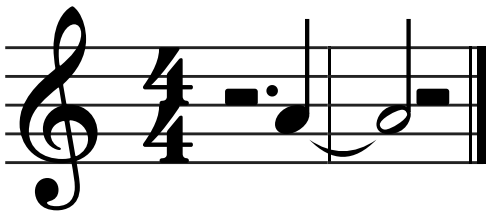

do – re **T**	mi – fa **S**	sol – la **T**	si – do **S**
fa – sol **T**	la – si **T**	re – mi **T**	mi – fa **S**

Soluzioni · Conta la legatura

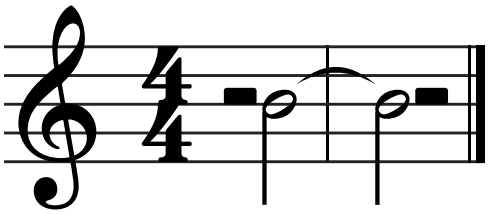

La legatura unisce due note: suoni una nota sola e conti tutti i battiti. Quanti battiti dura la nota legata?

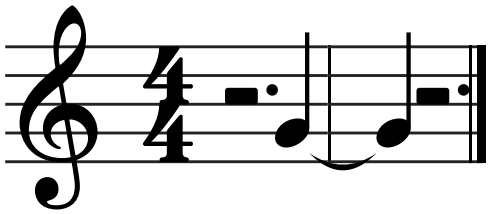

3

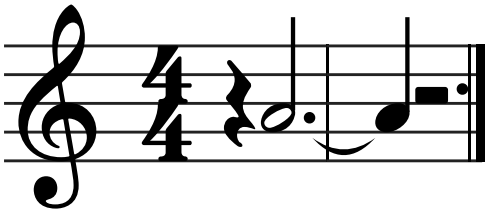

3

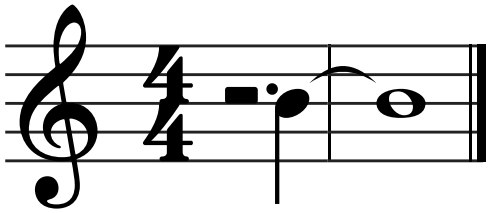

4

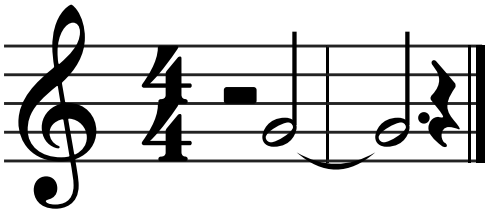

2

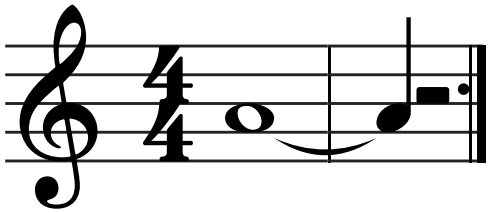

4

5

5

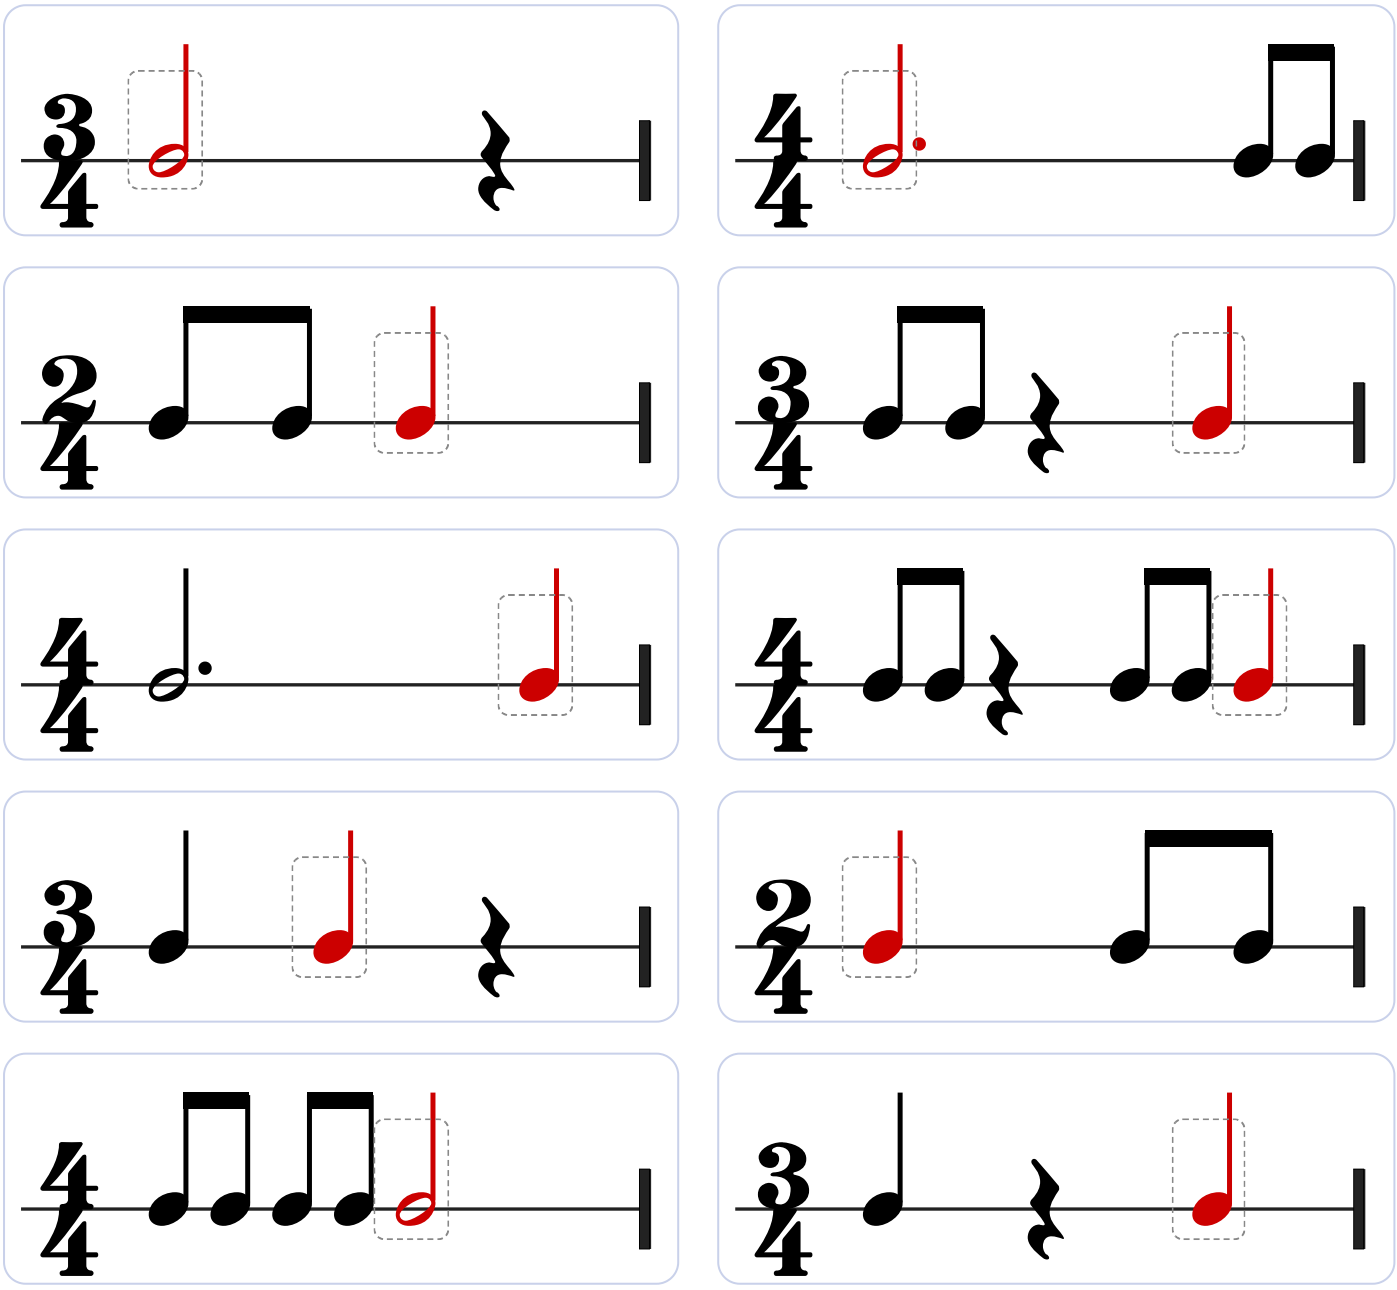

5

Le pause servono solo a completare la battuta: conta solo la nota legata.

Soluzioni · Completa le battute

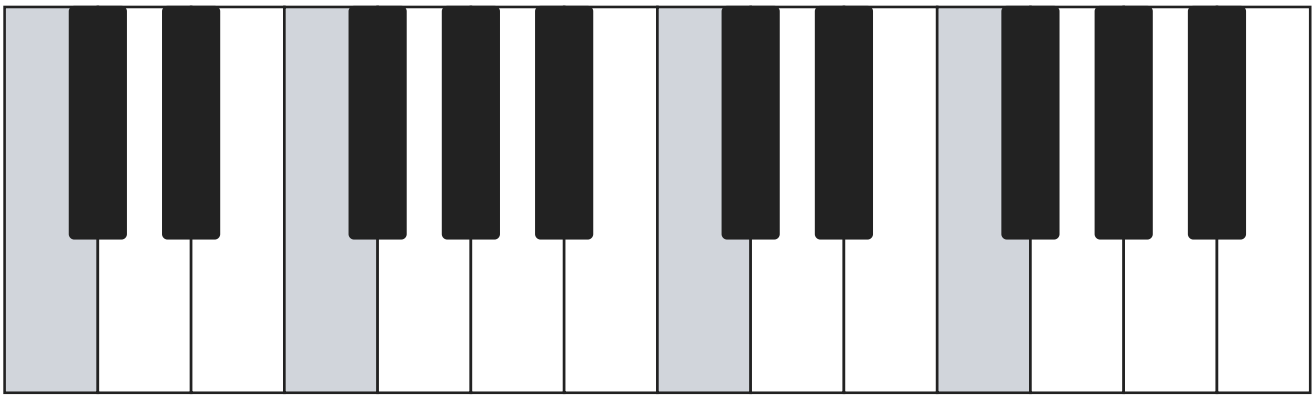

Ogni battuta deve avere i battiti giusti. Disegna la figura che manca nella casella.

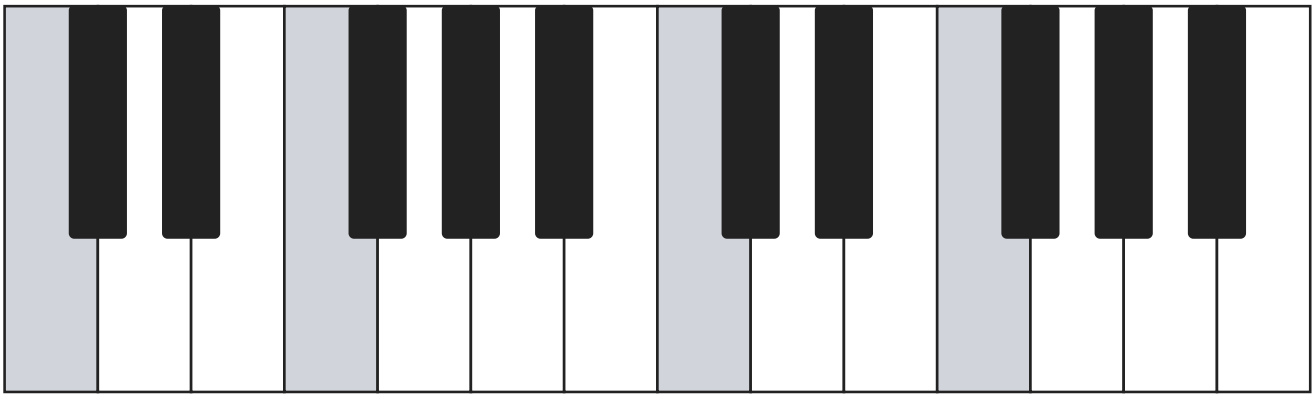

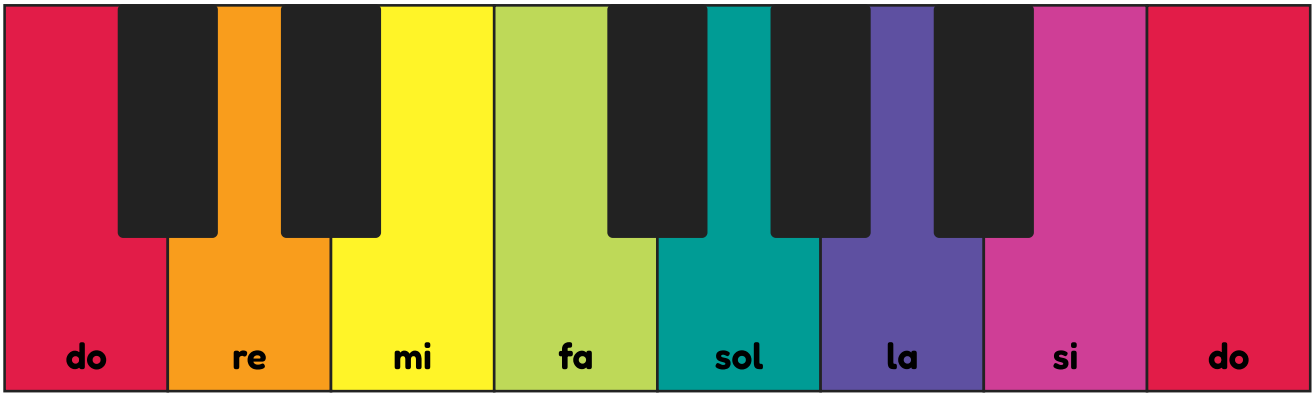

Soluzioni · Tutti i do della tastiera

Colora di un colore tutti i **do** e di un altro tutti i **fa**.

Il **do** è a sinistra dei **due** tasti neri. Il **fa** è a sinistra dei **tre** tasti neri.

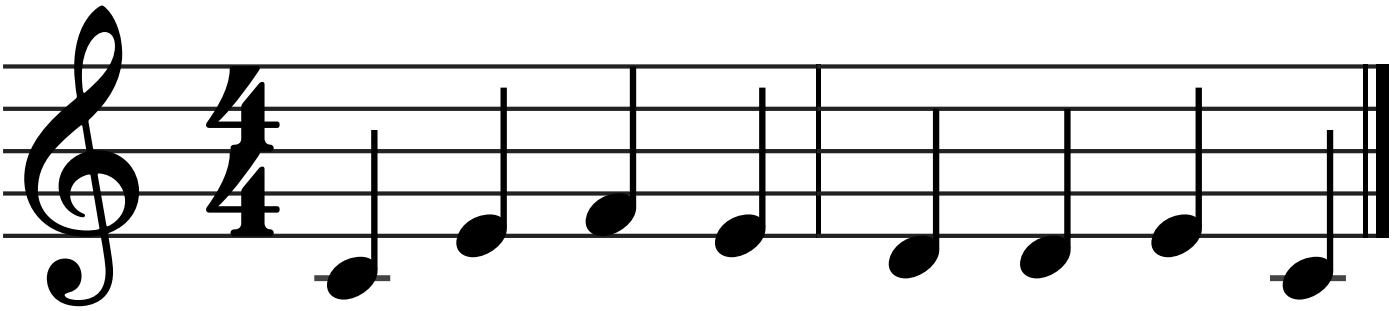

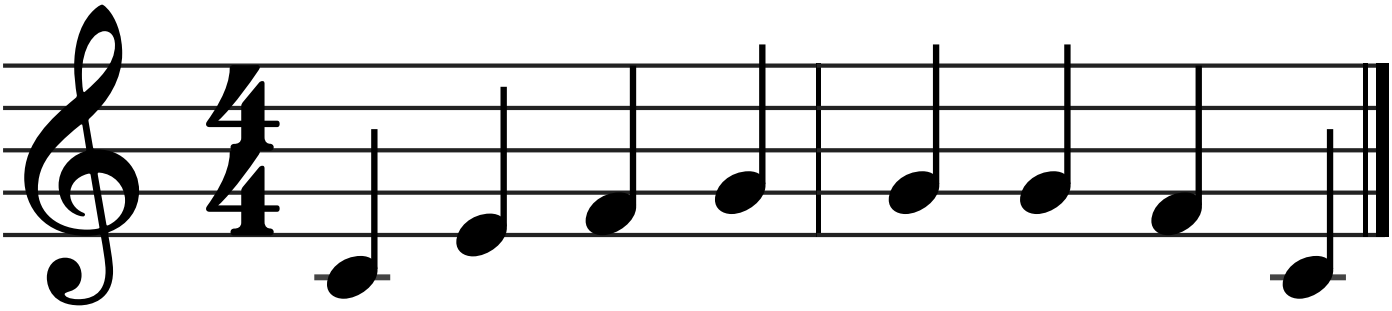

Soluzioni · Dettato con cinque note

L'insegnante suona una melodia con **do re mi fa sol**. Scrivi le note sulle righe ritmiche già pronte.

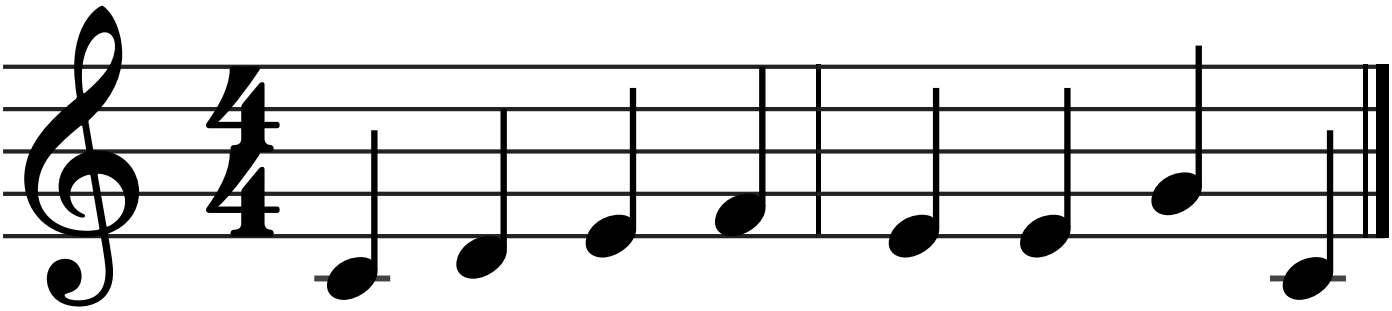

Dettato 1 — do mi fa mi re re mi do

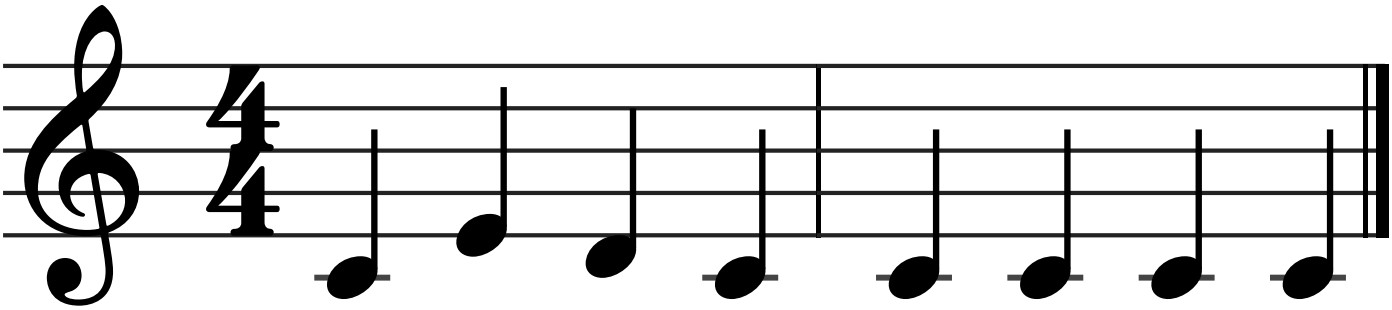

Dettato 2 — do mi fa sol sol sol fa do

Dettato 3 — do re mi fa mi mi sol do

Dettato 4 — do mi re do do do do do

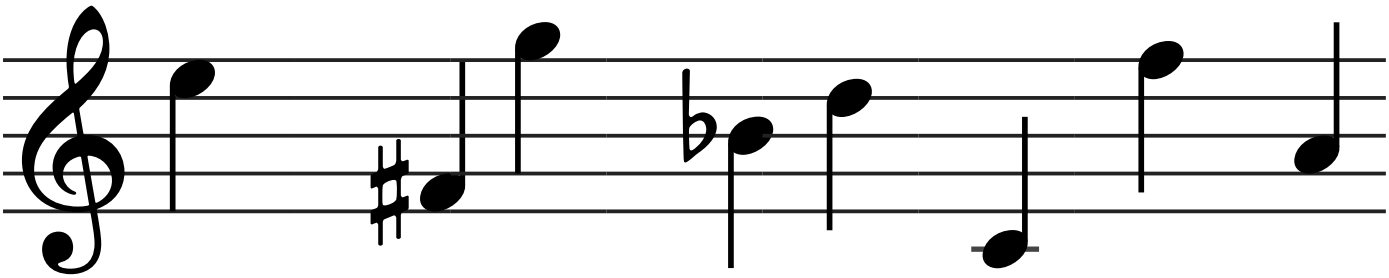

La prima e l'ultima nota sono il **do**. Ogni nota dura un battito.

Soluzioni · Che cosa ho imparato

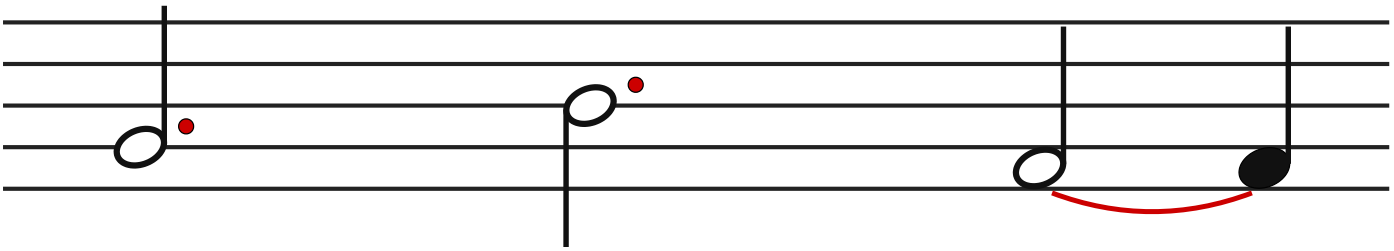

Fai tutti gli esercizi con calma. Alla fine colora la stella!

1. Scrivi il nome delle note (attento ai diesis e ai bemolle).

mi | fa♯ sol | si♭ re | do | fa | la

2. Aggiungi il punto e la legatura dove indicato.

punto | punto | legatura

3. Quanti battiti?

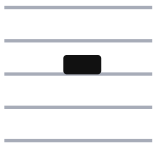

3

½

4

2

4. Tono (T) o semitono (S)?

mi – fa **S**

do – re **T**

si – do **S**

sol – la **T**
